The Language of Creativity: Integrating Intelligence, Inquiry, and Expression

Introduction

Discovering New Artists, as a life-time member of Western Union Foundation and Watson Institute, Colorado, USA, and with support from HBL Pakistan, is proud to bring another transformative one-day training workshop for art educators and creatives in Lahore, Pakistan. Building on the success of last year's training, this year's workshop takes a deeper dive into equipping teachers with the knowledge and strategies to cultivate creativity more holistically in the classroom.

Through interactive sessions led by distinguished trainers, educators will explore how to develop students' creative capacity, learn to recognize their multiple intelligences, and engage them through the language of materials and art as inquiry. By integrating these approaches, educators will be empowered to move beyond traditional instruction and nourish curiosity, imagination, and critical thinking.

This year's workshop continues to welcome teachers from both private schools and community organizations, creating an inclusive learning environment that bridges diverse communities. Aligned with DNA's mission, the program ensures that educators from all backgrounds have access to innovative methodologies that make art education a powerful tool for personal growth, self-expression, and lifelong learning.

Topics:

1. Developing creative capacities among learners
2. Understanding art as inquiry

Key Takeaways from the Workshop

- Understand how to recognize and develop students' creative capacity, equipping them with the confidence and tools to think imaginatively.
- Learn to nurture multiple intelligences, recognizing and cultivating diverse talents such as visual, musical, kinesthetic, and interpersonal skills through art.
- Explore the language of materials, encouraging students to experiment with textures, media, and resources to spark new and original ideas and expressions.
- Discover how to approach art as inquiry, helping students use art to ask questions, investigate ideas, and connect deeply with the world around them.
- Leave with the confidence to create classrooms that serve as inclusive, creative hubs where every student can unlock their unique potential.

Who Should Attend?

1. Art Educators from private schools, government schools, and community-based institutions. This workshop is designed primarily for K–12 art educators, equipping them

with innovative tools and approaches to nurture creativity in young learners. It is also highly beneficial and recommended for university-level educators, teaching assistants, and creative practitioners who wish to expand their pedagogical practice and bring fresh perspectives into their classrooms and studios.

2. Educators from Non-Art Subjects who wish to integrate creativity and inquiry into their teaching.
3. Community Organization Facilitators working with children and youth in creative or educational spaces.
4. School Leaders and Coordinators who oversee curriculum and wish to strengthen art education in their institutions.

Workshop Details:
